

Fans

CDVA 400-710

Roof fan made of plastic

Excellent service life and efficiency. Worldwide.

The Colasit CDVA roof fan has a robust and seamless polyester housing made of weather-resistant plastic. This roof fan has a standard three-phase motor according to IEC, can be adjusted in single or multiple stages and can be optionally upgraded with a frequency converter. The motor is separated from the exhaust air flow and therefore protected against corrosion.

Construction

- One stage, suction on one side, vertical exhaust
- Direct drive
- CE marking

Characteristics

Volume flow

min. 550 m³/h to max. 19300 m³/h

Static pressure

min. 50 Pa to max. 600 Pa

Efficiency (tot. mech.)

max. 44%

Inlet Ø

400, 450, 500, 560, 630, 710 mm

Housing

- Available in **GRP**
- Sturdy, seamless casing

Impeller

- Available in **PP**
- Axial impeller
- Three setting angles for optimal operating point

Drive

- Direct drive: Impeller mounted directly on motor shaft
- Motor: Asynchronous motor
PM motor (required with FC)
- Motor separated from exhaust

Accessories/options

Required

- Isolation switch

Optional

- Frequency converter for speed control
- Thermally insulated GFRP roof mounting base
- Automatic damper

Dimensions

400, 450, 500, 560, 630, 710 mm

Plastic fans from Colasit

Since its founding in 1945, Colasit has grown to be a leading provider of plastic fans made of corrosion-resistant plastics. Colasit has been setting the standard within its product lines for many decades. Hundreds of thousands of Colasit fans are improving air quality in the industrial sector in laboratories and building technology around the world.

Swiss quality with global support

Fan development and plastic component production take place in Switzerland to guarantee our exceptional quality. Colasit and its distribution sites all around the world provide professional consultation, sales, on-site assembly of plastic fans, installation, and service.

Key features

Colasit plastic fans are a durable, energy-efficient solution that provides what we ultimately offer: process reliability. Our ATEX-compliant fans offer maximum safety even in potentially explosive atmospheres (Zone 1 or 2).

Online configurator ColaVent®/BIM

Our comprehensive product range provides excellent coverage of requirements for flow rates up to 130 000 m³/h and static pressures up to 7000 Pa. Colasit supports planners, engineers, and operators in designing plastic fans from Colasit with the ColaVent® online configurator at www.colasit.com/colavent. Colasit also provides the BIM data necessary for design.

Worldwide

Colasit is a worldwide leading provider of chemically resistant fans, exhaust air purification systems, ventilation systems for corrosive and environmentally harmful exhaust air and gases as well as apparatus and processing systems for chemically aggressive liquid media.

Exhaust air purification systems made of plastic for treating environmentally hazardous exhaust air and gases

Plastic fans for efficient and safe conveying of corrosive exhaust air and gases

Ventilation systems made of plastic for efficient routing of corrosive exhaust air and gases

Processing systems, containers, vessels, and equipment for safe handling of chemically aggressive liquid media

Installation, repair, and replacement parts services

Consultation and engineering services in plastic construction for individual components to entire systems
